A Population Perspective on Sexual Orientation, Mental Health, and Substance Use

Susan D. Cochran, PhD, MS, Department of Epidemiology, UCLA School of Public Health;
Vickie M. Mays, PhD, MSPH, Professor, UCLA Department of Psychology;
Professor, UCLA School of Public Health: Director, UCLA BRITC Center

Inequality, Discrimination and Mental Health in the LGBT Community

Rafael Diaz, PhD, Clinical Psychologist; Professor Emeritus San Francisco State University

Stigma and the Mental Health of Sexual Minorities: Looking Back, Thinking Ahead

Gregory Herek, PhD, Professor of Psychology, University of California, Davis

Is Sexual Minority Stress Theory the Answer to Understanding LGBT Disparities?

Ilan Meyer, PhD, Williams Senior Scholar of Public Policy, The Williams Institute, UCLA Law School

Comparing LGBT and Heterosexual/Cisgender Siblings: Are There Mental Health Disparities?

Esther Rothblum, PhD, Professor, Women's Studies Department, San Diego State University

Caring for the Mental Health of Transgender People

Jae Sevelius, PhD, Assistant Adjunct Professor, UCSF School of Medicine

Where Do We Go From Here: A Future Research Agenda: A Panel Discussion

Moderated by the Co-Chairs of the LGBTQ Research Committee, UCSF Leadership Collaborative

James Dille, MD, Chief of Psychiatry, San Francisco General Hospital; Executive Director,
UCSF Alliance Health Project; Vice-Chair of UCSF Department of Psychiatry

Steve Morin, PhD, Director, AIDS Policy Research Center, UCSF; Professor, UCSF School of Medicine

This FREE event focuses on mental health practice and is open to the public.

Six BBS and BRN continuing education hours available for \$30.

The Alliance Health Project is approved by the California Board of Registered Nursing (Provider Number CEP 8671), and the California Board of Behavioral Sciences (Provider Number PCE 1190) for six contact hours of continuing education credit for RNs, MFTs, LPCs, LEPs, and LCSWs. There is no pre-registration for continuing education hours. To register, please bring your license number and check or cash to the symposium. There are no refunds. To receive credit, registrants must remain for all sessions of the conference.

The symposium will explore the epidemiology, manifestations, and theories of mental distress and mental health disparity for lesbian, gay, bisexual, transgender, and queer (LGBTQ) populations and subpopulations through a series of seven focused presentations based on substantial research by leading researchers in the field. Upon completion of the symposium, participants will be able to: 1. Describe how homosexuality and gender issues have been historically viewed by mental health organizations; 2. Identify common mental health disparities for members of LGBTQ communities; 3. Explicate the current theory for the development of these disparities; 4. List and explain the main areas of current LGBTQ mental and behavioral health research; 5. Identify research deficits and an agenda for future research necessary to mitigate these deficits.

RSVP REQUIRED: [AHP-symposium.eventbrite](http://tinyurl.com/ahp-symposium-eventbrite)
